HARDY PLANTS

Rock Plants
and Bulbs

FALL 1932

Garden Making

As summer wanes autumn presents new joys and opportunities for "studies in contentment" to garden minded folk. Now summer's debris of dead stalks and seed pods can be cleared away. The warm mellow earth responds easily to fork and rake, many hardy plants spread cheerful green mats and can be transplanted to make sturdy root growth before the ground freezes. And oh, the joy of tucking hundreds of smooth brown bulbs into the soft earth in anticipation of a glorious spring garden!

We shall be glad to give desired cultural information and suggestions for planting. Detailed plans and expert labor in making perennial gardens, alpine gardens or in remaking an old garden will be furnished at reasonable prices. We offer sturdy, vigorous perennial plants, choice imported Dutch bulbs and the best American-grown Narcissus obtainable.

We are truly grateful to friends and customers for our ever increasing business and we hope we may be of real service in selecting plants and making gardens.
